PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience designing, building and deploying production applications end-to-end: **React and Next.js** frontends, **Node.js, Express, NestJS and PHP/Laravel** APIs, **PostgreSQL, MySQL and MongoDB** databases, and **Flutter** mobile apps, with **5 apps published on Google Play**. Delivered payment systems (HyperPay, Stripe, JazzCash, wallets), real-time features (Socket.IO, LiveKit), authentication (JWT, OAuth, Sign in with Apple, OTP) and admin CRMs for home-services, healthcare and e-commerce platforms, using **Docker**, **GitHub Actions CI/CD**, automated testing, Vercel and VPS hosting.

TECHNICAL SKILLS

Frontend: React 18/19, Next.js 14/15/16 (App Router, Server Actions), TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Vite, Svelte, Vue 3, Astro, jQuery, Bootstrap

Backend: Node.js, Express.js, NestJS, PHP 8, Laravel, Laravel Sanctum, REST API Design, Socket.IO, Cron Jobs, Swagger/OpenAPI

Databases & ORM: PostgreSQL, MySQL, MongoDB, SQLite, Redis, Prisma, Sequelize, TypeORM, Mongoose, Migrations

Mobile: Flutter, Dart, Riverpod, Provider, go_router, Dio, Clean Architecture, Google Play Console, App Store Connect

Auth & Security: JWT (Access/Refresh), OAuth (Google), Sign in with Apple, OTP (SMS/WhatsApp/Email), RBAC, Rate Limiting, Helmet

Payments & Integrations: HyperPay, Stripe, PayPal, JazzCash, Easypaisa, Wallets, Firebase FCM, Twilio, LiveKit, AWS S3, Google Maps

DevOps & Cloud: Docker, Docker Compose, GitHub Actions CI/CD, Nginx, Apache, PM2, Linux VPS, Vercel, Render, Coolify, cPanel

Testing & Tools: Jest, Supertest, Playwright, Flutter Tests, Git, GitHub, GitLab, Jira, Figma, Postman, Agile / Scrum

PROFESSIONAL EXPERIENCE

Full Stack Developer
Apr 2025 – Present
Marifahsol
Islamabad, Pakistan

- Build and ship full-stack features across Node.js/Express and NestJS APIs, React CRM dashboards and Flutter apps for the Care N Clean (home services, UAE) and CureVista (healthcare) platforms.
- Implemented payments (HyperPay checkout, payment links, wallets, settlements), identity (Sign in with Apple, WhatsApp/SMS OTP, email verification) and FCM push infrastructure with scheduled broadcasts.
- Published and maintain 5 mobile apps on Google Play, including signing, AAB builds, store listings and review compliance.

Software Developer
Feb 2024 – Mar 2025
TechChaps.uk
Islamabad, Pakistan

- Built REST endpoints in TypeScript/Express on PostgreSQL (account deletion, business creation, bookmarks) with SQL migrations, and a layered Deals module with 10 CRUD endpoints for an e-commerce API.
- Delivered SvelteKit/Svelte 5 pricing, review and blog pages and Vue 3 + TypeScript account views; main Flutter developer of the Thrive Hub app (38 screens).

Backend Developer
Feb 2023 – Nov 2023
GrowUp Tech Solutions
Islamabad, Pakistan

- Built RESTful APIs with Node.js, Express.js and MongoDB powering mobile apps and admin panels, including authentication and role/permission management.
- Designed database models, optimized queries and supported frontend and mobile teams with API integration, debugging and documentation.

KEY PROJECTS

Care N Clean – Home Services Platform (User, Partner & CRM) | **Live on Google Play** Jun 2025 – Oct 2026

Node.js, Express, Sequelize, MySQL, Socket.IO, Firebase, HyperPay, React 18, Vite, Flutter, Riverpod

- Sole developer of the User, Partner and CRM Flutter apps (2,480+ commits; 400+ REST endpoints, Socket.IO real-time booking and dispatch, HyperPay payments, 170+ test files).
- Built Express APIs for HyperPay checkout with idempotent status handling, expiring payment links, customer wallets, vendor settlements with VAT, Sign in with Apple (JWKS, token revocation) and OTP with WhatsApp/SMS fallback.
- Delivered app-store-compliant account deletion (30-day grace cron, admin approvals), an FCM device registry with scheduled broadcasts, and matching React CRM screens.

CureVista – Home Physiotherapy Platform | **Live on Google Play** Jun 2026 – Oct 2026

NestJS 10, TypeORM, PostgreSQL, Redis, Socket.IO, LiveKit, Firebase, React 18, Astro, Flutter, Docker

- Most active developer (469 of 665 commits) on a platform of a NestJS API (431 endpoints, 47 entities), React admin CRM, Astro SEO site and 2 Flutter apps; wrote 20 migrations and new modules.
- Built clinical forms (treatment plans, progress notes, discharge summaries), PROMs with server-side scoring, PDF reports, Google/Apple auth, LiveKit calls, bank-transfer payments with cron reminders, referrals and coupons.

WePower Solar – Company Website & Admin CRM | **Live: wepowerenergysolutions.com** May 2026 – Oct 2026

React, Vite, Express, SQLite, PHP 8, MySQL, Firebase FCM, Chart.js, GitHub Actions

- Built solo a solar company website with 5 lead-capture forms (quotes, site surveys, load calculator, careers), email alerts and an admin CRM with analytics, CSV export and job postings; rebuilt in PHP/MySQL for production hosting.
- Cut homepage image weight from 9.3 MB to 0.48 MB (WebP, lazy loading); added English/Urdu with hreflang and JSON-LD, CSP headers, rate limiting, FCM push and SSH-based CI/CD to a VPS.

Talk to Learn – Language Learning App Mar 2024 – Oct 2024

Flutter, Provider, REST APIs, flutter_stripe, flutter_sound, AWS S3, JWT, Vue 3, Node.js

- Built the Flutter app almost single-handedly (23 screens): voice-recorded language tasks uploaded to AWS S3, quizzes, scoring and teacher/AI feedback, OTP sign-up, offline detection and release signing.
- Integrated Stripe subscriptions (saved cards, default payment method, plan upgrades, billing history, cancellation) and implemented plan upgrades in the Vue 3 web app and Node.js API.

Nikamy – Fashion E-Commerce Platform May 2026 – Sep 2026

Next.js 14, TypeScript, Tailwind CSS, Zustand, Express, Sequelize, MySQL, Stripe, Flutter, GitHub Actions

- Built solo a full store and admin panel: 41 pages, ~117 REST endpoints and 31 models shared by the web store and a Flutter app, with product variants, wishlist, reviews, returns, B2B wholesale tiers and product feeds.
- Integrated 6 payment methods (Stripe webhooks, PayPal, JazzCash, Easypaisa, bank transfer, COD), JWT refresh tokens, Google OAuth, role permissions and CI running 4 API test suites against MySQL.

Other Projects

- **SnapGrab:** Media toolkit with 41 SEO pages and 24 in-browser tools (Next.js 16, React 19, Prisma).
- **Elazel:** E-commerce platform: layered Deals module with 10 CRUD endpoints (TypeScript, Express, PostgreSQL) and Vue 3 + TypeScript account views with reusable form components.
- **Laravel REST API:** Laravel 10 API with sign-up/login, request validation and token authentication (Laravel Sanctum, MySQL).
- **PHP Web Projects:** Restaurant ordering website with cart, checkout and admin panel; Blog CMS; lead-capture site with PHPMailer (PHP, MySQL, jQuery, Bootstrap).

EDUCATION

Bachelor of Science in Computer Science (BSCS) 2020 – 2024

National University of Modern Languages (NUML), Islamabad CGPA: 3.55 / 4.00

CERTIFICATIONS & ACHIEVEMENTS

- 2nd Position, NUML Open House 2023: Touch Bistro, a digital restaurant ordering system (QR menu, real-time order tracking, payments) built as Final Year Project.
- Certifications: Node.js – Code with Harry (2024) | Flutter App Development – Code with Dhruv (2023) | Freelancing – DigiSkills (2019).
- Active Member, NUML Computer Science Society (NCSS).
